SUMMARY

Front-end focused software developer with professional experience building React applications and Node.js APIs. Contributed to production features including an admin dashboard and state management architecture using Redux Toolkit. Strong background in UI development with Tailwind and Bootstrap with growing expertise in full-stack development.

TECHNICAL SKILLS

JavaScript, React, Node.js, Express
HTML5, CSS3, Tailwind, Sass, Bootstrap
MongoDB, PostgreSQL, MySQL
Git, GitHub, Redux Toolkit, Vite

EXPERIENCE

Code Obsidian

Junior Software Developer

2024-Present
Remote

Spearheaded the development of an admin dashboard for the OneStory platform, integrating React for dynamic interfaces and Node.js for scalable backend routes. Achieved expertise in Redux Toolkit by implementing state management systems.

- Led development of an admin dashboard for the OneStory platform using React, Tailwind, and Redux Toolkit
- Built backend API routes using Node.js and Express
- Implemented scalable state management architecture using Redux Toolkit
- Collaborated with developers to integrate front-end components with backend services
- Contributed to development of a social media platform for book readers

2U

Learning Assistant (Full Stack Web Development)

2022-2024
Remote

Delivered exceptional student support, maintaining goal average resolution times and satisfaction ratings over multiple weeks. Chosen as one of 10 team members for a pilot coaching trial, recognized for consistently exceeding performance metrics and delivering valuable insights to students.

Accomplishments

- Invited to participate in a select test group for the rollout of a new Micro-bootcamp service, contributing to curriculum refinement and improved service delivery.
- Met weekly requirements for resolution time, rating percentage, and rating feedback,

2U

Learning Specialist

2024
Remote

Previous position of Learning Assistant combined with roles of Central Grader and One-on-one tutor.

Dunkin Donuts

2012-2018, 2021-Present

Manager

Torrington, CT

Managed operations in a high-volume store, achieving promotion to Assistant Manager within a month of reaching eligible age.

Accomplishments

- Contributed to operations at one of the highest-performing stores in the state, processing an average of 300 to 400 orders per day during peak periods.
- Streamlined service delivery during peak hours, expediting up to 100 customers per hour.
- Promoted immediately upon 18th birthday to shift leader position, taking on many additional duties often given to store managers.

PROJECTS

OneStory | Onestory.one

- Social media platform for book readers developed by Code Obsidian
 - Built major portions of the front end using React, Tailwind, and Vite
 - Developed backend API routes using Node.js and Express
 - Implemented global state management with Redux Toolkit
 - Integrated MongoDB with Mongoose for application data handling
- Stack: React, Vite, Tailwind, Redux Toolkit, Node.js, Express, MongoDB, Mongoose

Dictionary Web App | github.com/Zacharycampanelli/dictionary_web_app | campanelli-dictionary-app.netlify.app/

- Implemented light/dark mode and dynamic typography theme switching
 - Designed responsive UI components using Tailwind and Flowbite
 - Optimized API calls and UI rendering for smooth user interaction
- Stack: React, Vite, Tailwind, Flowbite

Planets Fact Site | github.com/Zacharycampanelli/Planets-fact-site | campanelli-planet-site.netlify.app/

- Created a multi-page React application displaying planetary data
 - Built reusable UI components and routing with React Router
 - Rendered dynamic content from structured JSON data sources
 - Implemented responsive layouts using Sass and React Bootstrap
- Stack: React, Vite, Sass, React-Bootstrap, React Router

Password Generator | github.com/Zacharycampanelli/react-password-generator | campanelli-password-generator.netlify.app/

- Developed a configurable password generator with strength analysis
 - Implemented dynamic UI updates using React state management
 - Built interactive controls for password length and character types
 - Designed responsive layout with Tailwind CSS
- Stack: React, Vite, Tailwind

EDUCATION

Certificate, Full Stack Web Development

University of Connecticut, Storrs, CT

CompTIA ITF+ Certification

CompTIA

Bachelor of Graphic Design Minor in Computer Science

Central Connecticut State University, New Britain, CT
